MEMORANDUM FOR: Members of the Exceptional Intelligence  
Analyst Selection Committee

FROM: [ ] Chairman

STAT

SUBJECT: 1983 Exceptional Intelligence Analyst Program (U)

1. Attached are two memoranda from the DCI responding to our recommendations for participation in the subject program. You will note from the first that the two candidates, [ ] NSA, and [ ] DIA, have been deleted, and that changes to several of the programs have been suggested. I trust that you will see to it that the DCI's recommended changes are conveyed to the respective analysts. (U)

2. The second memorandum initiates a number of changes in the way in which successful candidates are recognized. I will be working with the IC Staff to implement these changes, and expect to call on you in the near future to review the accomplishments of the Class of 1980. (U)

3. Finally, I would urge each of you to reconsider those candidates that did not make the cut from both in and outside your offices. The Program can afford several additional participants, and I believe it would be worth the effort to petition the DCI for an expansion of the Class of 1983. Please have these recommendations to me by the end of January 1983. (U)
